PROFESSIONAL SUMMARY

Motivated Software Developer with over one year of professional industry experience in modern web application development and software engineering. Strong foundation in designing scalable, user-focused software solutions, with strengths in analytical problem-solving, collaborative development, and delivering maintainable applications. Passionate about contributing to impactful software products while continuously expanding expertise in full-stack development and modern software engineering practices.

EXPERIENCE

Associate Software Engineer Mar 2026 – June 2026
R Factory Pvt. Ltd. Malabe, Sri Lanka

- Develop and maintain web applications and interactive digital experiences for commercial projects.
- Build immersive 3D web applications and collaborate with cross-functional teams to deliver production-ready software.
- Participate in feature implementation, testing, debugging, and continuous improvement throughout the software development lifecycle.

Software Engineer Intern Mar 2025 – Mar 2026
R Factory Pvt. Ltd. Malabe, Sri Lanka

- Assisted in developing web applications and interactive user interfaces for commercial projects.
- Contributed to immersive 3D web experiences and responsive interface implementation while working with senior developers.
- Gained hands-on experience in software development, version control, testing, debugging, and Agile development practices.

PROJECTS

AURA – Adaptive UI Personalization Platform *ML-Driven Accessibility Framework*

- Contributed to an adaptive web interface personalization platform supporting adults with visual, motor, and digital literacy challenges.
- Developed reusable adaptive React components and integrated user personalization profiles through a published NPM package.
- Final-year research project awarded Grade A, presented at ISCTIS 2026, and published in IEEE Xplore.
- **Technologies:** React, TypeScript, React Context API, NPM, Machine Learning Integration.

Dialog Interactive Gaming Experiences *Commercial Web Applications*

- Developed and enhanced promotional gaming applications, including digital mini-games and augmented reality experiences deployed across customer engagement platforms.
- **Technologies:** React, Tailwind CSS, JavaScript, and WebXR.

Dialog TV Interactive Troubleshooting System *Immersive 3D Support Web App*

- Developed an interactive 3D web application that enables customers to troubleshoot Dialog TV equipment through immersive visual simulations.
- **Technologies:** Three.js, JavaScript, HTML, and CSS.

Personal Finance Tracker REST API

Secure Backend Architecture

- Developed a RESTful backend supporting user authentication, transaction management, budgeting, financial reporting, and role-based access control.
- **Technologies:** Node.js, Express.js, MongoDB, JWT, Swagger, and Jest.

Vibespace SL – Community and Event Platform

Event Discovery Hub

- Designed and developed the frontend and Fan Circle community platform, enabling event discovery, fan engagement, announcements, and community interaction.
- **Technologies:** React, Tailwind CSS, Firebase, and JavaScript.

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, HTML, CSS

Frontend Development: React.js, Tailwind CSS, Three.js, WebXR

Backend Development: Node.js, Express.js, REST APIs

Databases & Services: MongoDB, Firebase

API & Security: JWT, Swagger, Role-based Access Control (RBAC)

Testing & Tools: Jest, Git, GitHub, NPM

Software Engineering: Agile Development, Version Control, Debugging, Software Testing, Responsive Design, SDLC

EDUCATION

B.Sc. (Hons) in Information Technology

2022 – 2026

Specialization in Software Engineering, SLIIT

- Completed all academic requirements for the degree programme.
- Expected to graduate with Second Class Honours. Eligible for the Final Semester Dean's List.
- Final-year research: AURA – Adaptive Web UI Personalization for Visual, Motor, and Literacy Diversity in Adults.
- Research project awarded Grade **A**, presented at ISCTIS 2026, and published in **IEEE Xplore**.

GCE Advanced Level

2021

Rathnavali Balika Vidyalaya, Gampaha

Combined Mathematics: B | Physics: B | Chemistry: C
