Summary

Passionate and driven undergraduate with hands-on experience in full-stack development and agile methodologies. Adaptable and eager to learn, I am committed to building real-world software solutions through teamwork and problem-solving.

Technical Skills

Programming Languages | Javascript, Java, PHP, Python, HTML, CSS

Frameworks and Technologies | MERN Stack (MongoDB, Express.js, React.js, Node.js), MySQL, RESTful APIs

Software and Tools | Github, Figma, Visual Studio Code, Android Studio

Concepts | Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Design Patterns

Methodologies | Agile, Scrum

Other Skills | React Native, Tailwind CSS

Projects

HydroPRO

07/2024 - 10/2024

Smart Hydroponic Management System

- Developed 'HydroPRO,' an IoT-powered hydroponic management system that automates nutrient control in farming using **MERN stack** (MongoDB, Express.js, Node.js, React), and Arduino.
- Contribution: Implemented the Income and Expense Tracker, including features for admin dashboard development, income and expense recording, financial analysis, and automated report generation.
- Github link: [Click here](#)

Fixr

07/2024 - 10/2024

Handyman Management Mobile Application

- Developed 'Fixr,' a handyman management app featuring job creation, worker tracking via QR codes, and weather-informed availability using **MongoDB, Express.js, Node.js, React Native, and Firebase**.
- Contribution: Implemented the customer service module, including customer dashboard features and QR code-based job time tracking.
- Github link: [Click here](#)

Kandyan Studio

02/2023 - 06/2023

Digital Color Lab and Studio Management System

- Built a web application using the **MERN stack** to manage and automate studio processes, tailored to specific client requirements.
- Contribution: Implemented the employee management module, which includes attendance tracking, performance monitoring, payroll generation with employee notifications, and process optimization for enhanced efficiency.
- Github link: [Click here](#)

To-Do

05/2024 - 05/2024

Task Management Mobile Application

- Designed and developed an individual project featuring task creation, updating, and deletion for efficient task organization and data persistence using **Kotlin** and **Room Library** to manage tasks efficiently with a user-friendly interface using Android Studio as the IDE.
- Github link: [Click here](#)

Boat Safari Management System

03/2023 - 06/2023

- Developed a web application using **HTML, CSS, JavaScript, and PHP** for managing safari tours.
- Implemented features such as booking and accommodation management, tour guide management, user account management, and payment processing to streamline operations.
- Github link: [Click here](#)

Soft Skills

- Teamwork & Collaboration
- Time Management & Organisation
- Problem Solving
- Critical Thinking
- Creativity
- Self Motivation
- Adaptability

Education

- **2022 - present**
Sri Lanka Institute of Information Technology
BSc(Hons) Specialized in Software Engineering
- **2021**
G.C.E. Advanced Level Examination in Physical Science
Rathnavali Balika Vidyalaya, Gampaha
Combined Mathematics - B | Physical Science - B | Chemistry - C | General English - A
- **2017**
G.C.E. Ordinary Level Examination
Rathnavali Balika Vidyalaya, Gampaha
9A's including ICT

Extra Curricular Activities

- Senior prefect | 2019 - 2020
Rathnavali B.V. Gampaha
- Secretary of Senior Western Band | 2020
Rathnavali B.V. Gampaha
- Member of School Cricket Team | 2018 - 2020
Rathnavali B.V. Gampaha
- Member of Sri Lanka Girl Guides Association | 2017 - 2020
Rathnavali B.V. Gampaha
